Academics Report

- What we've done in 2013
 - Solidified a culture of academic importance – separately targeting individuals, classes, pledges, and recruits- but most importantly throughout the house.
 - Put in processes to focus on grades; keep our academic profile off of the college's radar; and strive to make our academics part of DKE's selling point.
- Who we're working with (relationship building)
 - Annette Diorio, VP for Campus Life regarding our academic strategy
 - Dan Alaya, Ass. Director for Residence Life, for tactical interactions with the school
 - The registrar, to drive an understand that our members' grades allows us to understand performance and act in alignment with Lafayette's Greek academic goals.
- Significant accomplishments
 - Established a vision for our academics
 - All members graduate on time
 - Win the academics competition of the lion trophy
 - Continue the progress that we've made over the past two years
 - Oversaw an increase in GPA by 0.2 between fall 2012 and spring 2013
 - Understood and communicated the root cause between recruiting and grades
- Future challenges
 - Keep the level of requests of the alumni association to the undergrads to a balanced level
 - Continue to have high expectations for undergraduate leadership and body
 - Continue connecting rush processes to academic performance
 - Maintain administration relationships to support our academic and larger reputation
